Share Community Café

Our story

We're a registered charity and social enterprise café, providing work experience and training in catering and hospitality for adults with learning disabilities, autism, and mental health needs.

Our students have the opportunity to master the art of barista-level coffee making and catering, and learn valuable employability skills such as serving customers and handling payments.

Not only does this help them learn practical work skills, it also nurtures their personal growth and emotional wellbeing. We see first hand our students' deepening independence, improved communication and social skills, and well-deserved pride in their accomplishments.
