# Share Community Café

## Our story

We're a registered charity and social enterprise café, providing work experience and training in catering and hospitality for adults with a learning disability, autistic adults, and adults with mental health and other support needs.

Through the café, our students learn barista-level coffee making and catering skills, alongside valuable employability skills such as serving customers and handling payments.

Not only does this help them develop practical work skills, it also nurtures their personal growth and emotional wellbeing. We see first hand our students' deepening independence, improved communication and social skills, and the pride they take in their achievements.
